

Laparoscopic Scissors

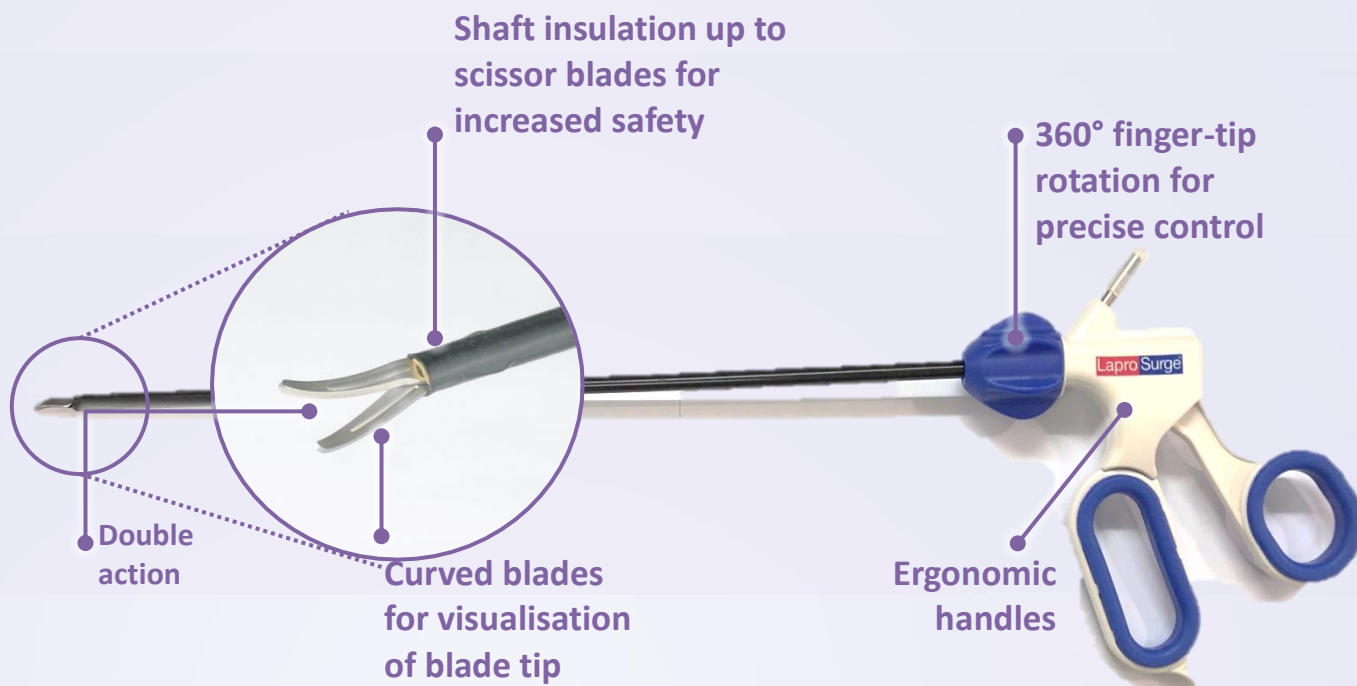

High quality laparoscopic scissors available with a choice of 12mm or 17mm double action blades.

All blades are precision manufactured to achieve accurate cutting at the tip, and are designed with a wide opening angle for improved tissue dissection.

Blade length options:
12mm or 17mm

Shaft length options:
330mm or 450mm

All with monopolar connection
– monopolar cable also available
